

Fabulous Feet Dance Center, in accordance with the CDC and local and state regulations, have implemented the following health and safety protocols:

1. A Payment Envelope is outside the studio, so that entry is not required (unless paying by cash).
2. All dancers are temperature-checked upon entering the studio with an I-Health Infrared No-Touch Forehead Thermometer.
3. After temperature checks, all dancers will sanitize hands with our 80% plus pure grain alcohol that is also safe for young/delicate hands (the same formula used in hospitals). Dancers have the option of washing hands with antibacterial soap for 20 seconds and drying with a single-use towel.
4. Ceiling tiles, walls, floors, bathrooms, etc. are cleaned daily using Victory Backpack Electrostatic Sprayer and Ultra Q-128, the same non-toxic cleaner/disinfectant used in Rescue Vehicles and Hospitals.
5. All 3 dance floors and lobby are clearly marked with tape for proper social distancing.
6. Ballet Barres are wiped down between classes with Ultra Q-128.
7. Acrobatic Mats are sprayed down between classes with Ultra-Q-128
8. Dancers who touch their eyes, nose, or mouth will sanitize or wash again.
9. All students sanitize or wash hands before leaving the studio.
10. Dancers have the option to wear masks during the class.
11. Teachers are required to stay a minimum of the CDC-recommended 6 feet away from others. Staff is required to wear masks when not dancing or need to get close to our dancers.
